

Authorized Distributor

SPS Companies, Inc. is excited to announce that we are now offering LG HVAC products.

Easy to install and service, LG HVAC Technologies offer flexible system designs with ducted and duct-free options providing a wide range of options for even your most challenging projects.

Achieve a whole new degree of profitability with LG HVAC Technologies

Easy to sell, install and service

- Strong brand recognition and consumer loyalty
- Powerful marketing, training and incentives for LG Excellence Contractors
- Flexible system designs with ducted and duct-free options
- Seamless systems integration and superior building control
- Industry-leading energy efficiency contributes to achieving LEED® certification
- Compact and light-weight design reduces space and structural requirements

**QUIET OPERATION
COST EFFICIENT
STYLISH DESIGNS**

LG Home Comfort Solutions allow homeowners to finally put an end to the “thermostat wars” by providing superior efficiency and precise room-by-room temperature control, so everyone can be happy.

Installation is quick, perfect for home renovations.

Contact your SPS sales representative or an SPS location near you to find out more about the LG HVAC products we carry.
